

# T5 Slave LED Tube (Dial up preset mode)

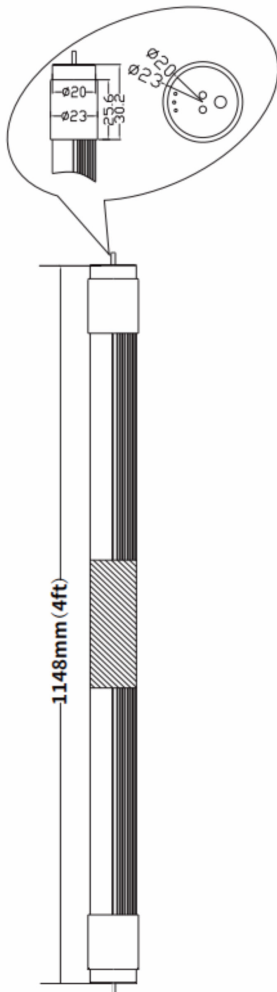

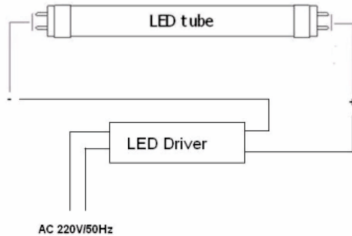

## Model : LT-R512-SL-BT

### Wireless Feature

1. Dial-up preset mode : The design focus on the automatic zone lighting system. Set the Dial Up switches in both the Master & Slave Tubes before the installation, then the automatic zone lighting is established after the tube installation.
2. The system is mainly for the zone lighting control. When moving object is detected, Master Tube will be turned on 100%, and the Slave Tube set to the same zone of the Master Tube will follow the Master Tube to be turned on 100%. When the moving object goes away, the Slave tubes will follow the Master Tube dim to the preset value.
3. Master Tube is built-in moving object sensor & transmitter. Slave Tube is built-in a receiver.
4. T8 tube body with T5 pin to suit for the T5 fitting (bracket).

Group  
GP1-15

### DC Tube

Standard Size(mm)	Ø20*1148mm
Material	AL6063+PC
Power (W)	16W
Voltage(V)	DC 30-42V
Beam Angle	180 degree
Luminous Efficacy	120 lm/W
Total Lumen	1920lm
Color Temp	3000K / 4000K / 6000K
CRI	>80

### Standard (Driver)

Input(v)	AC 100-240V
Output(v)	DC 30-42V
Output Current	400mA
Power Factor	> 0.9
Dimming Signal	2.4GHz Bluetooth 4.0
Slave Group ID	15 Group ( ID 01-15)
Dimming Level	Control by Master tube dimming value
